INTRODUCTION

R. L. POLK & CO., Inc., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1942-43 edition of Boyd's Norristown Directory, which also includes Bridgeport and Jeffersonville.

Confidence in the growth of Norristown's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Norristown to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Norristown Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 7 to 15C, on white paper presents lists of borough, county, state and federal officials; post office Directory; statistical review; historical sketch; and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 17 to 420, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Norristown and vicinity, and the name, official personnel, nature and address of each firm and corporation.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 421 to 527. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Three valuable features are included in this section. They are the designation of tenant-owned homes, the designation of the population of each house, and the listing of telephone numbers.

THE BUYERS' GUIDE, beginning opposite page 528 and separately paged from 1 to 20, on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Norristown and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Norristown, the necessity of having this kind of information immediately available is obvious. General appreciation of this fact is evidenced by the many reference users of this Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 529 to 582, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Norristown and vicinity.

The Norristown Directory Library

Through the courtesy of the publishers of the Norristown Directory, a Directory Library is maintained in the offices of the Norristown Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the Directory as an advertising medium, with assurance that it will bring a commensurate return.

NORRISTOWN

"GATEWAY TO VALLEY FORGE"

Compiled and Edited by Norristown Chamber of Commerce

Statistical Review

(Statistics apply to Norristown proper, unless otherwise stated)

Form of Government: Borough, the largest independent in the United States.

Population: 38,181 (1940 U. S. Census). 94% white. Among foreign born, Italian race predominates.

Area: 3.54 square miles (2,265 acres).

Altitude: 142.5 feet above sea level.

Climate: Mean annual temperature, 54.4 degrees F.; normal annual precipitation, 41 inches.

Parks: 1, of 52 acres. Public Square has area slightly more than four-fifths of an acre.

Assessed Valuation: $23,000,000, (1942); Total tax rate, for Borough, School and County purposes: $37.75 per $1,000. (1942).

Bonded Debt Outstanding: Borough, $487,000; School, $1,260,000.

Financial Facts: 5 banks (Norristown and Bridgeport), with total deposits of $28,872,236.08 (Dec. 31, 1941); total resources, $35,541,176.-28 (Dec. 31, 1941); Trust Funds, $37,613,308.48 (Dec. 31, 1941; Clearings (1941), $28,144,609.11; Individual Debits (1941), $156,-534,726.45. 14 building and loan associations in Norristown area with total assets (1941) of $4,097,662.25.

Postal Receipts: $244,969.53 (calendar year 1941).

Telephones in Service: Norristown Exchange: 11,374 stations, with 6,024 lines (Feb., 1942).

Churches: Norristown area: 54, representing 21 denominations.

Building Construction: (Norristown, Bridgeport and Plymouth and West Norriton Townships): 1,039 permits, with total value of $1,-153,828, issued in 1941.

Real Estate: Number of dwelling units: Norristown, 8,572; Bridgeport, 1,238; East Norriton, 549; Plymouth, 912; Upper Merion, 1,435; West Norriton, 889; total 13,595 (1940).

Industry: (Norristown Area): Chief industry is manufacturing, well diversified. In 1940, 64 establishments in Norristown proper, representing 40 kinds of industry, employing 2,701 men and 1,488 women, with an annual payroll of $5,138,000 and invested capital of $12,-262,100, manufactured products valued at $16,777,300.

In the same year, 38 establishments in Bridgeport proper and the Townships of East Norriton, West Norriton, Upper Merion and Plymouth, employing 6,860 persons, with an annual payroll of $9,244,000 and invested capital of $22,405,700, manufactured products valued at $53,073,500.

Total for Norristown Area: Establishments, 102; employes, 11,049; annual payroll, $14,382,000; invested capital, $34,667,800; value of products, $69,850,800.

Principal manufactured products in the Norristown area: Asbestos, beverages, boilers, bolts, boxes (paper and wood), bread, bricks, cement, chemicals, chutes, cloth, clothing, coke, concrete blocks, concrete pipe, confectionery, dessert specialties, drugs, fabricated steel; fibre, flavoring extracts, furniture, games, hoppers, hosiery, ice cream, insulation, knit goods, knitting machinery, lime, macaroni, machinery, magnesia products, mattresses, medicines, millwork, mine equipment, ornamental iron, oxygen, paper, paving materials, pig iron, plates (steel), powder (face), pretzels, radiators, refractories, rivets, roofing materials, rugs, sand, screws, sheet metal products, shirts, slag products, sleeving, stacks, stone, tanks (steel and wood), tar products, toys, tubing, water coolers, wire products, woodworking machinery, woolens, yarns.

Trade Area: Retail area of approximately 250 square miles has a population of 124,000 persons. Of these, 80,000 live within 5 miles of municipal center.

RETAIL AND WHOLESALE TRADE (1940 Census)

Retail Trade	No. of Establishments	Sales or Receipts	Employes' Payroll
Norristown	642	$16,922,000	$1,878,000
Bridgeport	85	1,080,000	71,000
Wholesale Trade			
Norristown	41	5,348,000	350,000
Bridgeport	3	1,015,000	44,000
Service Establishments			
Norristown	253	1,269,000	347,000
Bridgeport	28	76,000	12,000

Newspapers: 1, daily.

Hotels: 3, with total of 303 rooms.

Railroads: (All electrified) Pennsylvania, 32 trains; Reading, 98 trains; Philadelphia & Western 125 trains; Lehigh Valley Transit, 48 trains; daily.

Buses: Reading Transportation Co., traversing Schuylkill Valley; Auch Interborough Transit Co., to Philadelphia; Schuylkill Valley Lines operates a comprehensive system covering entire Norristown suburban area.

Highways: U. S. 422 (Benjamin Franklin Highway); U. S. 202, through North and South Route, intersecting U. S. Routes 1, 30, 422, 309 and 611, all within 25 miles of Norristown; State Routes 23, 123, 73 and 363 traverse suburban communities.

Airports: (Norristown area) 2, privately owned.

Amusements: High School stadium seats 7,500 persons. 3 high school auditoriums, with total seating capacity of 3,840 persons; 5 moving picture theatres, with total seating capacity of 6,100 persons. Golf courses: 2 private, 2 open to public.

Hospitals: 3, with total of 271 beds. State Hospital, caring for 4,296 mental patients (March 5, 1942).

Education: 10 public schools, including 1 senior high school, 2 junior high schools, 7 elementary schools; total enrollment, 5,444 pupils. 3 parochial schools, with total enrollment of 1,387 pupils. 3 private schools, with enrollment of 173 pupils.

Public Libraries: 1, founded in 1794, with total of 15,000 volumes.

Borough Statistics: Total street mileage, 52, with 45 miles paved; sewers, $10\frac{3}{4}$ miles storm, $35\frac{1}{2}$ miles sanitary; gas meters, 7,731 (Norristown) 1,218 (Bridgeport); electric meters, 9,332 (Norristown) 1,333 (Bridgeport); reservoir capacity of water works, 20,000,000 gallons; daily average consumption, 6,000,000 gallons; water mains, 64 miles. Fire Department has 12 paid men, with 5 stations and 18 pieces of motorized equipment. Value of fire department property, not including buildings, $150,980. Police Department has 34 men, with 1 station and 3 pieces of motor equipment with 2-way radio. Average annual fire loss for 6-year period, 1936 to 1941, $51,857.29.

THE COUNTY OF MONTGOMERY

Less than 300 years ago, the territory which now forms Montgomery County was the home of the Lenni Lenape, a branch of the Delaware Tribe of Indians. The first settlements of white men were made in 1682 by English and Welsh. In the early 1700's, the German immigration brought many settlers. Later came the Swedes and the Scotch-Irish.

There are 62 political sub-divisions in the County—8 first class townships, 30 second class townships and 24 boroughs.

One-sixth of the entire population of the United States is contained within 100 miles of Norristown, the County Seat.

Montgomery is one of the five Counties of the Third Class of Pennsylvania. In tax rates on real estate, Montgomery has a much lower rate than any other third class County and one of the lowest of any county in the State.

The assessed valuation of real estate in Montgomery County is $285,000,000.

Since 1937 the County has had no bonded indebtedness, with the result that no funds are required for payment of interest and principal on bonded debt. This policy has made possible the low tax rate which residents of the County now enjoy.

The County owns and maintains 80 miles of improved highways and 147 bridges. The Pennsylvania Department of Highways maintains 806 miles of main highways.

The first turnpike road built in Pennsylvania, the Lancaster Pike, runs through the County. Here, in 1792-93, the road-building method of the Scotchman, John L. MacAddam, known as macadamizing, was used for the first time in America.

Industrially, Montgomery County has played an important role ever since the discovery of a great limestone belt running through it. As early as the 1690's, kilns were built to make lime, an industry still operating in the County. Later marble was quarried in large quantities along this limestone belt. For many years the marble quarries of the County were the principal ones in Pennsylvania.

Industrial development of the County has centered along the Schuylkill River. Steel mills and heavy manufacturing industries are located in Norristown, Bridgeport, Conshohocken, Royersford and Pottstown.

The Montgomery County prison is one of the few throughout the entire country approved by the Federal government for confinement of Federal prisoners.

Montgomery is the only County in the Commonwealth of Pennsylvania which has its own flag, authorized by enactment of the Legislature. The County colors, maroon and Quaker gray, were first unfurled September 10, 1934, on the 150th anniversary of the formation of the County.

Montgomery County is unique in that its combines large suburban areas with farming sections and localized industrial developments. In the suburban sections, municipal services provided are the equal of those in most large cities.

THE BOROUGH OF NORRISTOWN

The founding of Norristown and its history are coincident with that of the state of Pennsylvania and the nation. The names of some of its streets, families and surrounding communities indicate that the first settlers were Dutch, German, Swedish, Welsh and English, many of the last named nationality being Quakers. Descendants of some of the early settlers remain in this vicinity.

HISTORY

In 1616 Captain Hendrickson, sailing up the Delaware River, discovered a hitherto unknown river, which was given the name of Schuilen Kil, meaning "Hidden River". On the banks of this river, now the Schuylkill, lies Norristown.

The land embracing the present Norristown was conveyed to William Penn, on March 4, 1681, by Charles II in settlement of 16,000 pounds due the father of William Penn.

On October 2, 1704, William Penn gave to his son, William Jr., the tract known at that time as the "Manor of William Stadt", containing 7,482 acres, from which the whole of the present Borough of Norristown has been taken. Penn, Jr., just five days later, sold the tract to Isaac Norris and Col. William Trent for 850 pounds. On January 11, 1712, Col. Trent, the founder of Trenton, N. J., sold his holdings to Norris for 500 pounds.

In 1730, by decree of the Court of Quarter Sessions of Philadelphia County, the "Manor" was erected into a Township.

Isaac Norris, a member of the Society of Friends, was born in London, England, July 26, 1671. He emigrated to Jamaica in 1678 and came to Philadelphia in 1692. He became a member of the Assembly, a Justice of Philadelphia County and a member of the Governor's Council. At his death in June, 1735, he was Chief Justice of the Province. He never lived in Norristown or the immediate vicinity, and the naming of the settlement for him was undoubtedly due to his public activity and ownership of the land.

When Isaac Norris died, he left a large part of his estate to his son, Charles, and the latter, dying, left his estate to his wife. To settle the estate of Charles Norris, his widow, in 1771, offered at public auction 543 acres of what is now the center of Norristown, then known as the "Norris Plantation" or "Norrington". The price received was 4,270 pounds. Later it was sold for 4,600 pounds to John Bull, who on October 30, 1776, sold all his holdings, except about 55 acres, for 6,000 pounds to Doctor William Smith, Provost of the College and Academy of Philadelphia, which institution later became the University of Pennsylvania.

Originally, Norristown was in Philadelphia County. Montgomery County was erected September 10th, 1784.

The College and Academy of Philadelphia having acquired the Norris farm in 1776, the school and Dr. Smith, as the Revolution developed, were suspected of disloyalty, and the Pennsylvania Assembly revoked the school's charter, at the same time creating a new school called the University of Pennsylvania. All rights and property of the old school were transferred to the new University. Thus, when Montgomery County was erected, the University owned the region where it had been decided to locate the county seat, which was named The Town of Norris, in honor of Isaac Norris.

In 1791 the University sold its holdings bordering the Town of Norris, 484 acres, including Barbadoes Island in the River, to William Moore Smith, the son of Dr. Smith, and he disposed of it in 1802 to John Markley, who then began the development of the region.

On March 31st, 1812, the Town of Norris became incorporated as a Borough and changed its name to Norristown. The first election was held at the Court House and General Francis Swaine became the first Burgess and President of Council. Under the deed of 1784, ownership of the site of the court house and prison remained vested in the commissioners appointed to organize the county. March 23, 1835, Levi Pawling gave a deed transferring ownership to the Burgess of the Town Council of Norristown. Neither the deed of 1835 nor the deed of 1784 covered the major part of the Public Square but only the prison and court house tract, the court house being then on the north corner of what is now the public square. No deed whatever is on record for the Public Square, but in the deeds covering the court house the land is described as bordering "a Public Square to remain open forever".

After the old court house was demolished, a controversy developed between the county commissioners and Town Council as to ownership of the Square. Seeing that under the deed of 1835 Council might claim not only the Square but also the court house, the county commissioners in 1856 obtained a deed from the trustees of the University of Pennsylvania making the commissioners the owners of the court house site. Town Council then took possession of the Square. No attempt has ever been made to obtain a decision of court as to whether the deed of 1856 legally superseded Levi Pawling's deed of 1835.

GROWTH

In 1784 the "Town of Norris" had an area of 28 acres, and less than 100 inhabitants. Besides the county buildings, it had two stores, three taverns, a schoolhouse and about 20 dwellings, most of them log houses.

When incorporated in 1812, Norristown's area was 520 acres, with about 500 inhabitants. By 1850 the population had increased to 6,024, and the houses to 1,000.

In 1853, new territory was added, enlarging the borough to its present area. Main Street, the principal business thoroughfare of the Borough, is a development from an Indian trail, which is now a portion of the County and State highway systems. The street was originally called "Egypt Road", and this name is still visible on the corners of some of the older Main Street buildings.

The growth of Norristown from the very beginning to the present day has shown no mushroom characteristics. This applies to its commercial, industrial and financial institutions. These have multiplied steadily, substantially and permanently. The increase in population has been steady from year to year, as is best indicated by the figures of successive Censuses:

1820	827	1890	19,791
1830	1,039	1900	22,265
1840	2,937	1910	27,875
1850	6,024	1920	32,319
1860	8,848	1930	35,853
1870	10,753	1940	38,181
1880	13,063		

The following Norristown business concerns have been in operation for more than 100 years:

Eagle Works. Established in 1839. Now the Hilyard Company.

Washington Woolen Mills. Established in 1840. Now the George W. Watt Woolen Company.

Bank of Montgomery County. Chartered March 21, 1814. Stock books opened July 24, 1815. First Directors elected October 14, 1815. Was only bank in the County until 1857. Now the Montgomery National Bank.

Jamison's Cotton Mill. Established in 1828 or 1829. Now E. & L. Bry Co.

Norristown Insurance Co. Incorporated March 11, 1834. Now the Norristown Water Company.

Norristown Gazette. Founded in 1799 by David Sower. First issue June 14, 1799. Name changed in 1800 to Norristown Herald. Now the Norristown Times-Herald.

The Norristown area is well supplied with most types of labor including workers of the semi-skilled and apprentice types and a considerable supply of hosiery workers, clothing workers, iron workers, skilled machine operators and especially labor in the building trades. Common labor in all classes is plentiful throughout the area.

POWER AND FUEL

Electric light and power are available at unusually attractive rates being near one of the largest substations in the world at Plymouth Meeting with a 252,000 kilowatt capacity. Also at Norristown is the Barbadoes Station with a capacity of 40,000 kilowatts.

Gas is supplied through high pressure transmission mains. This manufactured gas is available at various specific pressures with rates comparing favorably with those of other cities in the East and with a particularly attractive rate for industrial uses.

Soft coal from the Pennsylvania, Maryland and West Virginia coal fields can be obtained in the Norristown area at rates which are particularly favorable. For hard coal, this section enjoys the benefits of the nearby Schuylkill anthracite region from which coal is shipped direct. The natural resources of the area are cement-bearing rock, trap rock and limestone.

SPECIAL NORRISTOWN FACTS

Norristown is the logical center of the agricultural and industrial life of the County, which embraces an area of 484 square miles, with a population in 1940 of 289,396.

It is the county seat of Montgomery County, which pays all of its expenses of maintenance and operation out of current income.

Norristown has unequalled fire protection, its insurance rating being the best in the country.

The soundness of its financial institutions is indicated by the fact that Norristown has never had a bank failure.

Despite the trend of recent years toward higher and higher taxation, Borough Council, without curtailing the municipal services, has reduced the Borough tax rate from 15 mills in 1939 to 12 mills in 1942.

With an assessed valuation of $23,000,000 and a tax rate of $12.00 for $1,000 for municipal purposes, Norristown's tax duplicate for 1942 will be $276,000. Based on its population of 38,181, this represents a per capita tax levy of $7.22. Although qualified for charter as a City, Norristown remains a Borough, the largest independent Borough in the United States.

In the 52 acres of its principal park, "Elmwood", the municipality maintains a zoo and complete recreational facilities.

Norristown is half an hour from Philadelphia; two hours from Atlantic City; two and one-half hours from New York City or the Pocono Mountains; three and one-half hours from Washington. Twenty minutes from Valley Forge.

POINTS OF INTEREST

While no battles were fought on the present site of Norristown, both contending forces of the Revolution marched over its soil. Memorials of glory are the surrounding heritage of Norristown. In one direction is Independence Hall; in another Valley Forge. Washington, Lafayette, the Muhlenbergs, Anthony Wayne, Rittenhouse Audubon, Lydia Darrah, Hancock, Hartranft, Hovenden—these are honored names inseparably associated with the environment.

VALLEY FORGE

Norristown is truly the "Gateway to Valley Forge", America's most sacred shrine. Owned and administered by the Commonwealth of Pennsylvania through the Valley Forge Park Commission, the reservation of 1,650 acres embraces the major part of the area occupied by Washington's Army encamped there from December 19th, 1777 to June 19th, 1778. It contains the original headquarters residence of Washington; his carriage house—now a museum of Valley Forge relics; a school house built in 1705 by Letitia Penn, daughter of William Penn; the quarters of General James M. Varnum; the Commissary headquarters; three original forts, and several miles of the original entrenchments, as well as redoubts, redans and lunettes and the Grand Parade, where von Steuben drilled the tattered, unskilled soldiers.

Also of interest to visitors are many other Revolutionary relics and splendid picnic grounds with fireplaces and tourist camps. Here, too, is the famous Washington Memorial Chapel and its adjoining museum of American history. Guide service is available and uniformed guards are in attendance at all points. More than 2,000,000 visitors are attracted annually to Valley Forge Park. Half of this number come during May, when the flowering dogwood trees are in bloom. Of this remarkable display, Harry Emerson Wildes, in his recent book, "Valley Forge", says: "Each year in May, on Dogwood Sunday, the display of blooming trees now holds the interest of a nation. No other floral offering, not even the magnificent Japanese cherry blossoms of the Washington Tidal Basin, draws so large a throng".

AUDUBON

Home of John Penn, grandson of William Penn, and the last Colonial Governor of Pennsylvania. This community located five miles west of Norristown, was also the first American home of John James Audubon, famed ornithologist.

AUGUSTUS LUTHERAN CHURCH

The oldest Lutheran Church building in America. Built in 1743 by Henry Melchoir Muhlenberg, this church is just off Ridge Pike, at Trappe, nine miles west of Norristown. General Peter Muhlenberg, Colonial soldier and statesman is buried in the historic church yard.

GENERAL ANDREW PORTER'S HOUSE

Built in 1787, this Norristown home was the birthplace of his three sons, David R. Porter, later Governor of Pennsylvania, George B. Porter, later Governor of Michigan and James U. Porter, who became Secretary of War under President Tyler. The stone building, still standing, is now the Fornance homestead and is located off Airy Street near the West Borough line.

MONTGOMERY COUNTY HISTORICAL SOCIETY

Historical Hall, 18 East Penn Street, Norristown, houses interesting exhibits and is free to the public.

OLD CHRIST SWEDE'S CHURCH

The present edifice was built early in the 19th Century. The Church was organized 200 years ago.

RITTENHOUSE HOME

A few miles north of Norristown on the Germantown Pike, east of Fairview Village, is the site of the former home of David Rittenhouse, celebrated astronomer and mathematician of the 18th century.

UNDERGROUND SLAVE STATION

Barn on the Hovenden property, Germantown and Butler Pikes, Plymouth Meeting, east of Norristown, covers what was once an underground slave station.

SWEDE'S FORD

Important crossing of Schuylkill River in Colonial times. This crossing was used by the Continental Army in December, 1777, on its way to the winter encampment at Valley Forge.

PUBLIC SQUARE

This plot of ground dedicated to the Town of Norris by the University of Pennsylvania, to be kept open forever as a public park. In this Square is one of the stones erected by David Rittenhouse, Colonial astronomer, to mark the true north and south line, which line was used to determine the boundary between Pennsylvania and Maryland.

PERSONALITIES

WINFIELD SCOTT HANCOCK—"Hancock the Superb"—a major-general of the Civil War, was born in Norristown. General Hancock was a candidate for the Presidency in 1880, but was defeated by James A. Garfield. His burial place is not far from the place where he was born.

JOHN F. HARTRANFT—another son of Norristown, was chosen to lead the volunteers from his native town in the Civil War. He passed from one rank to another until be became a major-general. Later, he served six years as Governor of the State.

SURGEON GENERAL LOUIS W. READ—Civil War surgeon. His home still stands on East Main Street, below Green. General Read saved the life of General Hancock, wounded at Gettysburg, by extracting the bullet and part of the pommel of the saddle which had been carried into the wound.

Information

in the mass seems like a dull proposition, but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has is ever occurred to you how much information you could get from this book, if you really knew how to use it.

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use, however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much. In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—
